

Apogee Therapeutics to Host Conference Call to Report Part B 16-Week Data from the Phase 2 APEX Trial of Zumilokibart in Patients with Moderate-to-Severe Atopic Dermatitis on May 27, 2026

May 26, 2026

Webcast to be held Wednesday, May 27th at 8:00 a.m. ET

SAN FRANCISCO and BOSTON, May 26, 2026 (GLOBE NEWSWIRE) -- Apogee Therapeutics, Inc. (Nasdaq: APGE), a clinical-stage biotechnology company advancing optimized, novel biologics with potential for best-in-class profiles in the largest inflammatory and immunology (I&I) markets, today announced it will report Part B 16-week data from the Phase 2 APEX trial of zumilokibart on Wednesday, May 27, 2026. Following the announcement, the company will host a conference call and webcast at 8:00 a.m. ET to discuss the results.

Webcast Details

Apogee Therapeutics' live webcast of the Phase 2 APEX Part B results will begin on Wednesday, May 27 at 8:00 a.m. ET. The live webcast can be accessed via this [link](#) or the Investors section on the Company's website at <https://investors.apogeetherapeutics.com/news-events/events>. A replay of the webcast will be available following the call.

About Apogee

Apogee Therapeutics is a clinical-stage biotechnology company advancing novel biologics with potential for differentiated efficacy and dosing in the largest I&I markets, including for the treatment of AD, asthma, EoE, Chronic Obstructive Pulmonary Disease (COPD) and other I&I indications. Apogee's antibody programs are designed to overcome limitations of existing therapies by targeting well-established mechanisms of action and incorporating advanced antibody engineering to optimize half-life and other properties. Zumilokibart, the company's most advanced program, is being initially developed for the treatment of AD, which is the largest and one of the least penetrated I&I markets, as well as asthma and EoE. With four validated targets in its portfolio, Apogee is seeking to achieve best-in-class efficacy and dosing through monotherapies and combinations of its novel antibodies. Based on a broad pipeline and depth of expertise, the company believes it can deliver value and meaningful benefit to patients underserved by today's standard of care.
